

Pastor Jack Myers Prophecy — AM Service 05.12.24

For many of you in this room, you feel like you've been struggling since the first of the year. And I can say this by the Holy Ghost, "your struggle is over. You're going to see a paradigm shift in your life". Not that you won't have trials and tribulations that will never be removed, but there is a struggle within trials and tribulations – the struggle part has been lifted! Steady as she goes. Hallelujah. Thank you, Jesus.

It's shifting. It's been God's people that has held back the 100% of the onslaught of the enemy. It's been your prayers, it's been YOU. The reason why it's not as bad as it could be is because we are God's children, and we have to live on this Earth. So, a lot is held back by God, because WE are on this earth. If the Church was removed off this planet it would be total chaos. But because each and every one of you has a destiny to fulfill and each and every one of you has a plan by God. God's plan in each and every one of your lives.... Don't allow Satan to trap you for a greater future...

God has a greater future for you.

Sometimes it's through the crucible of life, through the pain of life, through the fire of life - that we are refined. He's a refiner's fire. How do you think that refining is going to be? He's the potter, we're the clay. During the refining process, there is a purification that takes place. Gold has to be re-fired seven times before it is pure because of all the impurity that comes to the top. A potter takes a lump of clay and molds it, and shapes it, and pushes it, and squeezes it, and waters it, and makes a vase. He takes the vase and puts it in the oven. Then, when it's cured just right, takes the vase out and puts lacquer on it and then paints it. And something that may cost fifty cents turns into fifty thousand dollars.

Sometimes we want out of the refining, and we want out of the molding. But within the refining and within molding comes beauty, comes greatness. So, allow the process! Don't think that God is fighting against you – NO, He is with you! But He may be molding you, shaping you, refining you – to be meat for the Master's use. We all go through that.

And then there are times, right when you are about to break out of something into something new, that is when the struggle is the greatest. And you can trust in knowing that God was at every level you've been in the past – you can look back and go "Man, that was one of the greatest battles" and suddenly you got the victory, suddenly you got the victory.

That's when your character was formed, your integrity was formed, and the anointing became stronger in your life.

We may not like the molding process. We may not like the refining fire's process... but man when we get over on the other side. Oh My Gosh! Wow!

Listen, they didn't taste of the milk and honey until they went into the land. They had to overcome the giants to be able to go into the land. But when they overcame the giants... Come on somebody! When they overcame the giants... the grapes were there, the milk was there, the honey was there. Come on, I'm telling you!

Whatever Giant that you are facing in your life... right now – just know that this is the land of Milk and Honey.

It's on the other side... I feel the anointing of the Holy Ghost. Knowing... because that is just the nature of our God.

When Jesus told the disciples to get into the boat and go to the other side, it didn't matter what kind of storm arose. Isn't it interesting that when they go to the other side, it was one of the greatest deliverances that ever took place.

They went through the storm, God was in their boat, Jesus was in their boat, and it didn't sink when it would've sunk. So whatever season you're in right now.... and whatever situation you're in right now and whatever giant you're facing...

Listen! You got a slingshot... and you've got five stones.

Watch and see what's going to happen, because His presence is increasing and the enemy is being exposed for who he is and God's hand is on your life.

His hand is on your life!
